

Carel Maeda

Product Design Manager

Toronto, ON | carelmaeda@gmail.com | linkedin.com/in/carel-maeda | carelmaeda.com

Product Design Manager with six years in fintech SaaS, working across UX strategy, design systems, and cross-functional teams. I own the full design lifecycle, from user research to shipped code, and turn user insights into measurable outcomes, including 10-15% YoY organic revenue growth across enterprise accounts.

WORK EXPERIENCE

Project Design Manager

Paygos Inc, Toronto | Nov 2022 - Present

- **Leadership:** Lead UX strategy across the product suite, guiding projects from discovery to launch and setting design quality standards for the team.
- **Revenue:** Drove 10-15% YoY organic revenue growth across key enterprise accounts by translating user research insights into scalable feature enhancements.
- **Engagement:** Increased user engagement by ~15% YoY through workflow optimization and friction reduction initiatives.
- **Design System:** Own and evolve the company design system, documenting patterns and ensuring visual and interaction consistency across all products.
- **Discovery:** Lead client discovery workshops and stakeholder alignment sessions to uncover product gaps and expansion opportunities.
- **Accessibility:** Champion WCAG compliance through accessibility audits and inclusive design standards across platforms.
- **Partnership:** Partner with engineering and product leadership to prioritize the roadmap by impact, feasibility, and business value.

Project Design Specialist

Paygos Inc, Toronto | Oct 2020 - Nov 2022

- Led A/B testing and UX optimization initiatives that improved performance and conversion.
- Developed high-fidelity prototypes in Figma to accelerate stakeholder buy-in and reduce iteration cycles.
- Contributed to a scalable design system that improved delivery efficiency and cross-product consistency.

Project Coordinator

Paygos Inc, Toronto | May 2019 - Oct 2020

- Managed project timelines and cross-team coordination to ensure on-time delivery.
- Oversaw financial reporting and operational processes to improve internal accuracy and accountability.
